

Grade:6

Subject: Mathematics

Date:

Lesson / Topic: Chapter:1-Numbers Patterens

I. Choose the correct option:

1. What is the next number in the pattern? 2, 4, 6, 8, _____
 - a) 9
 - b) 10
 - c) 12
 - d) 11
2. Identify the pattern rule 3, 6, 9, 12, 15 _____
 - a) Add 2
 - b) Multiply by 2
 - c) Add 3
 - d) Subtract 3
3. What sequence do we get when we start adding up odd numbers?
 - a) Cubes
 - b) Squares
 - c) Triangular numbers
 - d) Even numbers
4. **Assertion (A)** The sequence 1 3, 5, 7, 9,... is an odd number sequence.
Reason (R) The sequence 2, 4, 6, 8,... is an even number sequence.
 - a) Both A and R are true and R is the correct explanation of A.
 - b) Both A and R are true but R is not the correct explanation of A.
 - c) A is true but R is false.
 - d) A is false but R is true.

II. Fill in the blanks with suitable words:

1. The branch of Mathematics that studies patterns in whole numbers is called _____.
2. The terms in the number sequence 3, 6, 12, 24, ... are generated by _____.

3. The sequence 1, 2, 3, 5, 8, 13, 21,... is called _____ sequence.
4. A _____ polygon is a shape with all sides and angles equal.

III. State whether each of the following statement is True or False:

1. The number 36 can be both a square and a triangular number.
- a. True
 - b. False
2. The sequence 1, 4, 9, 16, 25... is an example of cubes.
- a. True
 - b. False

IV. Answer the following questions:

1. What is the pattern rule followed by the sequence 88, 77, 66, 55, 44, 33...?
2. Complete the pattern and find the pattern rule: 5, 9, 13,?
3. If the first tower has 3 blocks, the second tower has 6 blocks and the third tower has 9 blocks, then How many blocks will the 8th tower have?

V. Case- based questions:

1. Students of Wineke Wee school visit a plants nursery with their class teachers. In the nursery, they see that the plants are kept in rows where the number of plants in each row follows a pattern. Based on the above information, answer the following questions.
- i. There are 3 plants in the first row, in the second row 6 and 9 plants in the third row. If the same pattern is followed, how many plants will be in the ninth row?
- a. 18
 - b. 27
 - c. 36
 - d. 9
- ii. How many total plants would be there in the 25th row?
- a. 50
 - b. 65
 - c. 75
 - d. 100
